

Jacksonville University Brooks Rehabilitation College of Healthcare Sciences Strategic Plan for 2019-2021 includes the following:

Develop new undergraduate and graduate health sciences programs while strengthening and expanding current programs to meet identified and/or emerging needs in healthcare.

Integrate evidence-based practice into rigorous academic and clinical programs at the undergraduate and graduate levels.

Leverage state-of-the-art simulation and technology to enhance student interdisciplinary learning and faculty teaching.

Build infrastructure to support faculty research opportunities.
