Family Nurse Practitioner and Clinical Assistant Professor with over 15 years of nursing experience is seeking a position in a professional organization to utilize my strong and diverse background of skills to provide the optimal quality of health to patients while supporting and encouraging my growth.

- Coordinated care, evaluated, and provided treatment to patients in acute pain with musculoskeletal and neurological injuries in multi-disciplinary, physical rehabilitation clinics
- Performed new consultations, provided follow up care, ordered diagnostic studies, prescribed appropriate interventions and medications, administered toradol and trigger point injections as needed, performed wound care, consulted specialists when appropriate, and provided direct patient care services in the outpatient, physical rehabilitation setting
- Additional advanced role rotation hours in Pediatrics, Infectious Disease, Cardiology, and Plastic Surgery
- Diverse background of experience including medical/surgical, operating room procedures, cardiology, critical care, as well as acute and chronic illness rehabilitation
- Served as relief charge nurse with responsibilities such as coordinating staff assignments based on acuity levels, providing team support, and conducting chart reviews
- Energetic and self-motivated team player/builder
- Enthusiastic and ready to learn as well as improve my skill set
- Proven skillful communication with patients and colleagues
- Professional experience in patient education and counseling
- Proficient in constructing diagnoses and treatment plans
- Adept in medical history taking, performing physical examinations, and ordering/analyzing diagnostic studies
- Knowledgeable in gathering and using the resources needed to provide the best quality of care
- Experienced in creation and implementation of electronic medical record for two medical facilities in the Jacksonville, FL area
